

# Intelligent sewers - vital for a resilient future?

Join us for a technical showcase of nuron's sewer nervous system & answers to key industry questions

10<sup>th</sup> February 2021  
10.00 – 12.00 GMT

## Where should I monitor?

Learn what you need to monitor, whether you are building a new smart city or transforming Victorian infrastructure

## Are CSOs vital or outdated?

Learn how real time distributed monitoring can help achieve target zero for pollutions

## Are larger sewers the only answer?

Learn how you can reduce large grey capital projects by controlling your sewer network

Hosted by  
Dr Paul Dickenson  
Technical Director

*"nuron has developed the most innovative technology I have seen in the water industry in 40 years!"*
